

Shrimp Feeds

GROWER 45%

- Formulated for first feeding PL's so typically produced in crumble sizes
- This diet contains high levels of marine protein including 10% squid
- Additionally, marine oils, beta glucans, and extra vitamins are utilized to ensure optimum nutrition.
- Precise crumble sizing allows for feed consumption to be optimized as shrimp grow
- "The Standard" for shrimp diet trials at several U.S. universities
- Available Sizes: #0,1,2,3,4 & 3/32"

ECO 35 & 30%

- These diets are designed for less intensive shrimp production systems where significant amounts of natural feed is present
- They are formulated with more economical protein sources to achieve lower feed costs

PRODUCTION 40, 35, & 30%

- These are complete diets for use in intensive culture systems
- Squid is an option in these diets and may be added to improve attraction and stimulate additional feed intake
- The 40% with 5% squid is often manufactured in crumbles providing an economical alternative to the Grower 45%
- They are formulated with high levels of marine protein and lipids.
- Known for their ability to support consistent growth for the entire production cycle with shrimp rarely stalling
- Normal squid inclusion levels are 5% in the 40% and 2.5% in the 35%
- Available Sizes: #0,1,2,3,4,3/32" & 1/8"

Feed Nutrition Specs

Diet	Protein %	Fat %	Fiber %	Ash %
GROWER45	>45	>9	<2	<10
